

Globe Telecom and Philippine Long Distance Telephone Company receive Multiple Awards at 2014 Frost & Sullivan Philippines Excellence Awards

Manila, Philippines, 18 July 2014 – Frost & Sullivan honored and recognized Philippine’s best at the 2014 Frost & Sullivan Philippines Excellence Awards banquet held on Thursday, 17 July 2014 at the Makati Shangri-la Hotel, Manila.

First founded in 2012, the Philippines Awards program began on showcasing outstanding IT and Telecommunications companies in the local market. This year, the Awards program expanded to also include other prominent companies in the Philippines from other sectors like Building, Energy, and Environment.

The 2014 Philippines Excellence Awards will recognize companies demonstrating best practices across various industries in the Philippine market. The objective of this awards program is to spur these industries forward by highlighting leading companies and individuals who inspire and influence the industry’s performance.

“We are pleased to celebrate local outstanding talents and their achievements at the annual awards in Philippines. We aim to highlight these local talents not only at a regional level but also internationally,” said Andrew Milroy, Vice President of ICT, Frost & Sullivan Asia Pacific.

The 2014 Philippines Excellence Awards recipients were identified based on an in-depth interviews, analysis, and extensive secondary research conducted by Frost & Sullivan’s analysts. Companies are typically studied on their revenue growth, market share in a specific category and growth in market share, leadership in new product introduction and innovation, breadth of products and solutions, major customer acquisitions, as well as business and market strategy in order to identify best practices.
